A COORDINATED COLLECTION

A quieter setting for every way work moves.

Shared spaces keep changing. People still need the right place to make a call, focus on individual work, or meet without taking over a permanent room. The MOVUSH M-Series brings six right-sized acoustic pods into one coordinated collection.

MANUFACTURING NETWORK

Built to support project delivery.

Movush is a premium office pod manufacturer with six years of industry experience and a team of more than 60 employees. We focus on building office pods that combine acoustic performance, durable construction, and dependable day-to-day use.

Our goal is to become a trusted global OEM partner for office pod brands and workspace projects. To support that goal, Movush uses carefully selected components throughout its products, including double-layer laminated glass, aerospace-grade aluminum frames, acoustic door frames, and double-layer molded soundproof rubber strips.

Quality also extends beyond the product itself. Movush provides responsive customer support throughout the cooperation process, and all products are backed by a one-year warranty.

ABOUT MOVUSH

Better spaces for focus, connection, and change.

Movush is a commercial furniture and workspace-solutions brand led by modular acoustic office pods.

We help dealers, designers, fit-out teams, and workplace buyers create adaptable private settings within active shared environments.

“A workspace can keep moving while the moments inside it become more focused.”

For dealers

A clear six-model range and project-ready specification support.

For designers

Coordinated forms, finishes and furniture across capacities.

For workplace teams

Private settings added without building a permanent room.

DESIGNED FOR REAL WORK

Why choose MOVUSH OfficePod.

Six practical details help projects move faster and make each pod easier to use every day.

40 min Quick installation

M1 pod can be installed in about 40 minutes. Modular parts keep setup fast and clean.

1 min Fresh air, fast

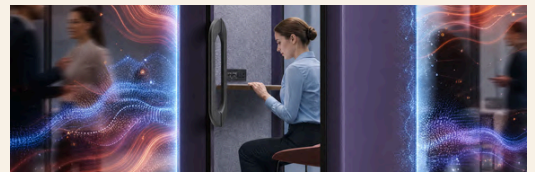

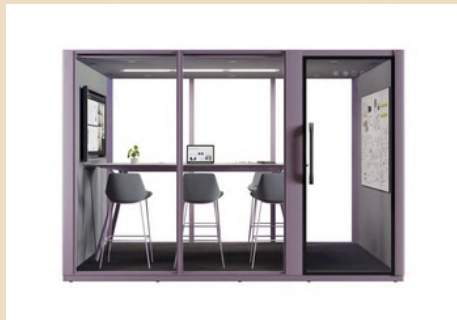

High-airflow fans can circulate the air inside the pod once every minute.

Up to 8

Sizes for every team
Pod sizes can be customized,

From one person up to the eight-person MOVUSH M8.

32.3 DB Tested speech reduction

SGS reported this result under ISO 23351-1:2020(E).

10 / 48

More color choices

Choose from 10 exterior colors and up to 48 interior panel colors.

Auto on. Auto off. Motion sensor control

An infrared sensor controls the lights and ventilation based on occupancy to help save energy.

M-SERIES OVERVIEW

One collection. Six ways to make room.

Calls, focus, conversation, collaboration and meetings—organized by activity, capacity and footprint.

CALL
